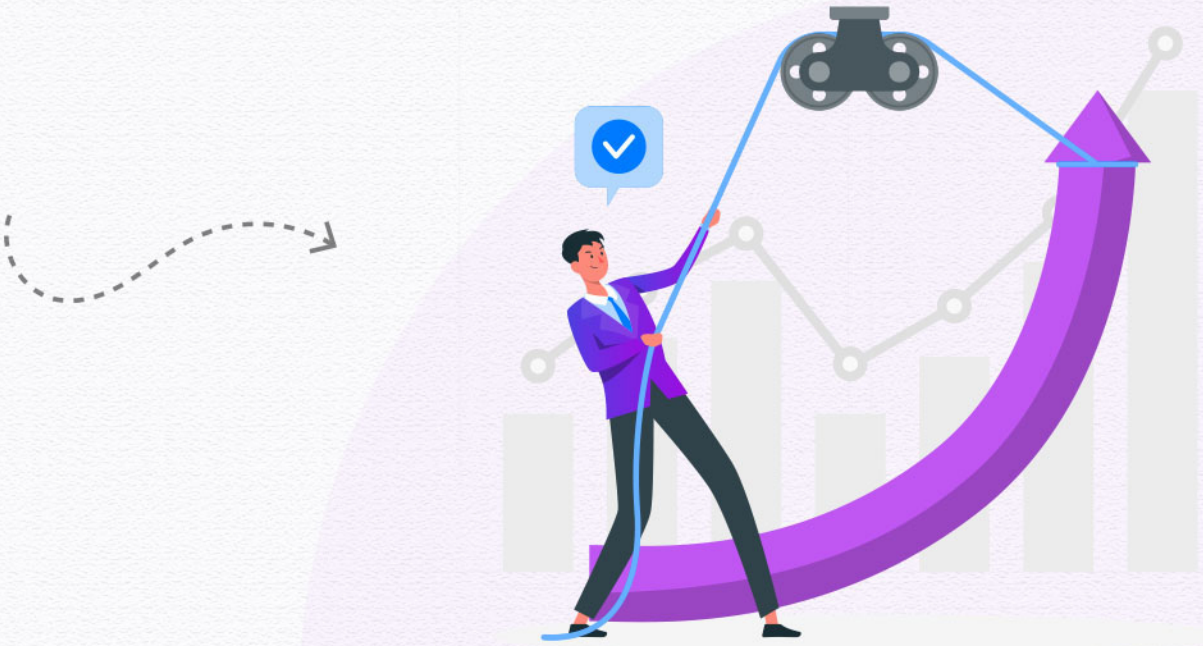
How Percipient NMS Mitigates

NETW RK OUTAGES CONS EQUENCES ?

ECHELON EDGE
Leading through Innovation

01

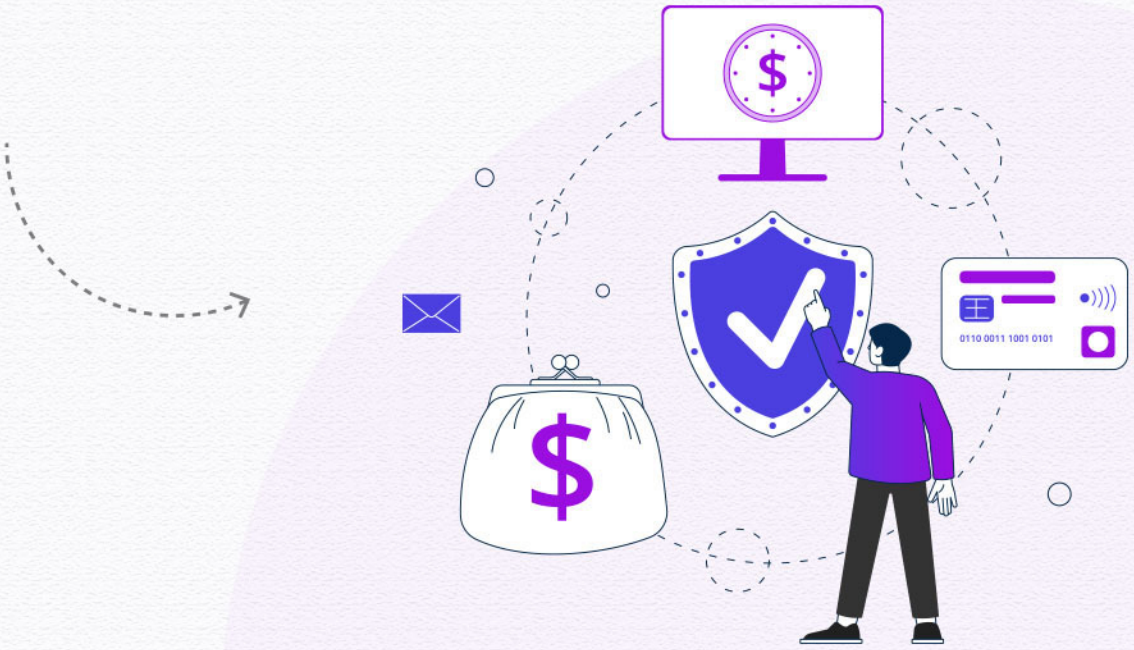
Predicts & Detects Latency, Jitter, and Performance Anomalies for Enhanced User Experience with Improved Network Performance



Swipe ->

02

Detects **Network Performance Anomalies in Real Time and Provides Alerts** to Quickly Investigate the Root Cause in a Few Simple Steps

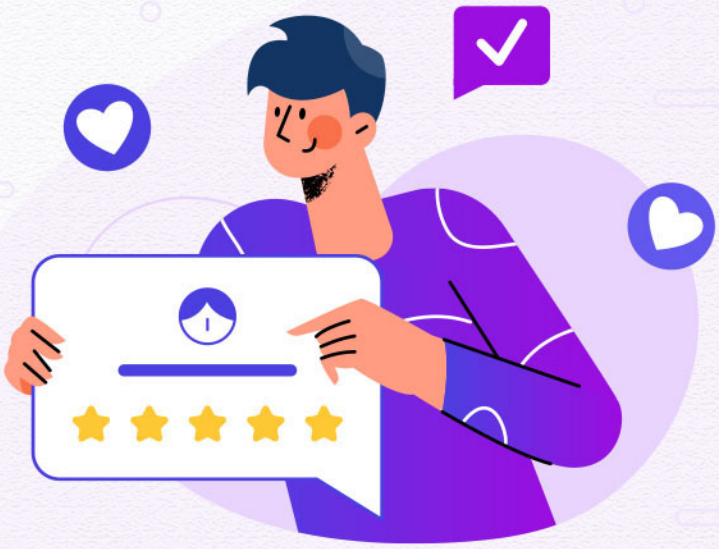


Swipe ->

ECHELON EDGE
Leading through Innovation

03

Gives the Power of **ML-driven Forecasting & Predictive Planning** to Grow and Change the Network with Confidence and Without Fear of Interruption or Misconfiguration



Swipe ->

ECHELON EDGE
Leading through Innovation

04

Analyzes **Telemetry Data** from Network Endpoints, Applications, Public and Private Clouds to **Understand Performance Incidents** and Unmanaged Assets Briefly

Swipe ->

ECHELON EDGE
Leading through Innovation

DON'T MISS A THING!

Use Percipient NMS for Unified Network Monitoring and Eliminate Network Outages for Efficient Enterprise Network Management

Swipe ->
